

## **Western Power Distribution Affordable Warmth**

Affordable Warmth aims to reduce fuel poverty across Devon, Cornwall and the Isles of Scilly, by working with members of the community to reduce their fuel bills and increase their knowledge and confidence about energy in the home. We Can Offer:

- Home visits
- Home assessments to identify ways to make them more energy efficient
- Support around understanding bills, different types of tariff and how to switch provider or tariff online
- Advice for installation and use of smart meters
- To contact the energy supplier where appropriate and advocate on customers behalf.
- To identify eligibility for financial support based on individual circumstances

**If you or someone you know needs help to lower their fuel bills or make their home more energy efficient, get in touch:**

**If there might be an opportunity to speak at one of your meetings please contact Martin or Katherine**

**Please Call: 01392 248 919**
