

A scenic photograph of a sunset over a body of water. The sun is low on the horizon, creating a bright, golden glow and a long, shimmering reflection on the water's surface. To the left, a dark silhouette of a cliffside features a large, leafy tree and a multi-story building with a balcony. The sky is a mix of soft orange and pale blue, with a few wispy clouds. The overall mood is peaceful and serene.

October 2020

Index of Multiple Deprivation 2019

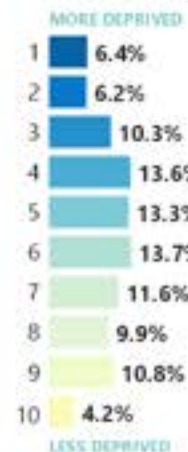

DEVON

Clinical commissioning group (CCG)

CCG profile

% of LSOAs in each national deprivation decile

What this map shows

This is a map of Index of Multiple Deprivation (IMD) 2019 data for **NHS Devon CCG**. The colours on the map indicate the deprivation decile of each Lower Layer Super Output Area (LSOA) for England as a whole, and the coloured bars above indicate the proportion of LSOAs in each national deprivation decile. The most deprived areas (decile 1) are shown in blue. It is important to keep in mind that the data relate to small areas and do not tell us how deprived, or wealthy, individual people are. LSOAs have an average population of just under 1,700 (as of 2017).

Supporting people experiencing homelessness and rough sleeping: *Emergency Department pathway, checklist and toolkit*

November 2022

Version 1.1

A screenshot of the NICE website. The header includes the NICE logo and navigation menus for Guidance, Standards and indicators, Life sciences, British National Formulary (BNF), British National Formulary for Children (BNFC), Clinical Knowledge Summaries (CKS), and About. The breadcrumb trail reads: Home > NICE Guidance > Health and social care delivery > Adult's social care. The main heading is "Integrated health and social care for people experiencing homelessness" with the subtitle "NICE guideline [NG214] Published: 16 March 2022". Below the heading are tabs for Guidance, Tools and resources, Information for the public, Evidence, and History. The "Guidance" tab is active, showing a sub-menu with "Overview", "Context", "Recommendations", "Recommendations for research", "Rationale and impact", and "Finding more". The "Overview" section contains the text: "This guideline covers providing integrated health and social care services for people experiencing homelessness. It aims to improve access to and engagement with health and social care, and ensure care is coordinated across different services." There is a "Download guidance (PDF)" link and a "Next >" button.

Had we lived, I should have had a tale to tell of the hardihood, endurance and courage of my companions which would have stirred the blood of every Englishman...

...these rough notes and our bodies must tell the tale,

But surely, surely a great rich country like ours will see that those who are dependent on us are properly provided for?
